

DiNAmik®

S50 System Parts

From 1970 to Today, From Today to the Future

Dinamik has managed to become a sought after brand in the display and shelf systems sector from the day it was founded. Supermarkets and store chains , architectural offices, logistics firms providing industrial storage facilities are amongst the type of clients Dinamik has served in 5 continents since it has started its journey in 1970.

Aiming for better in Every New Project

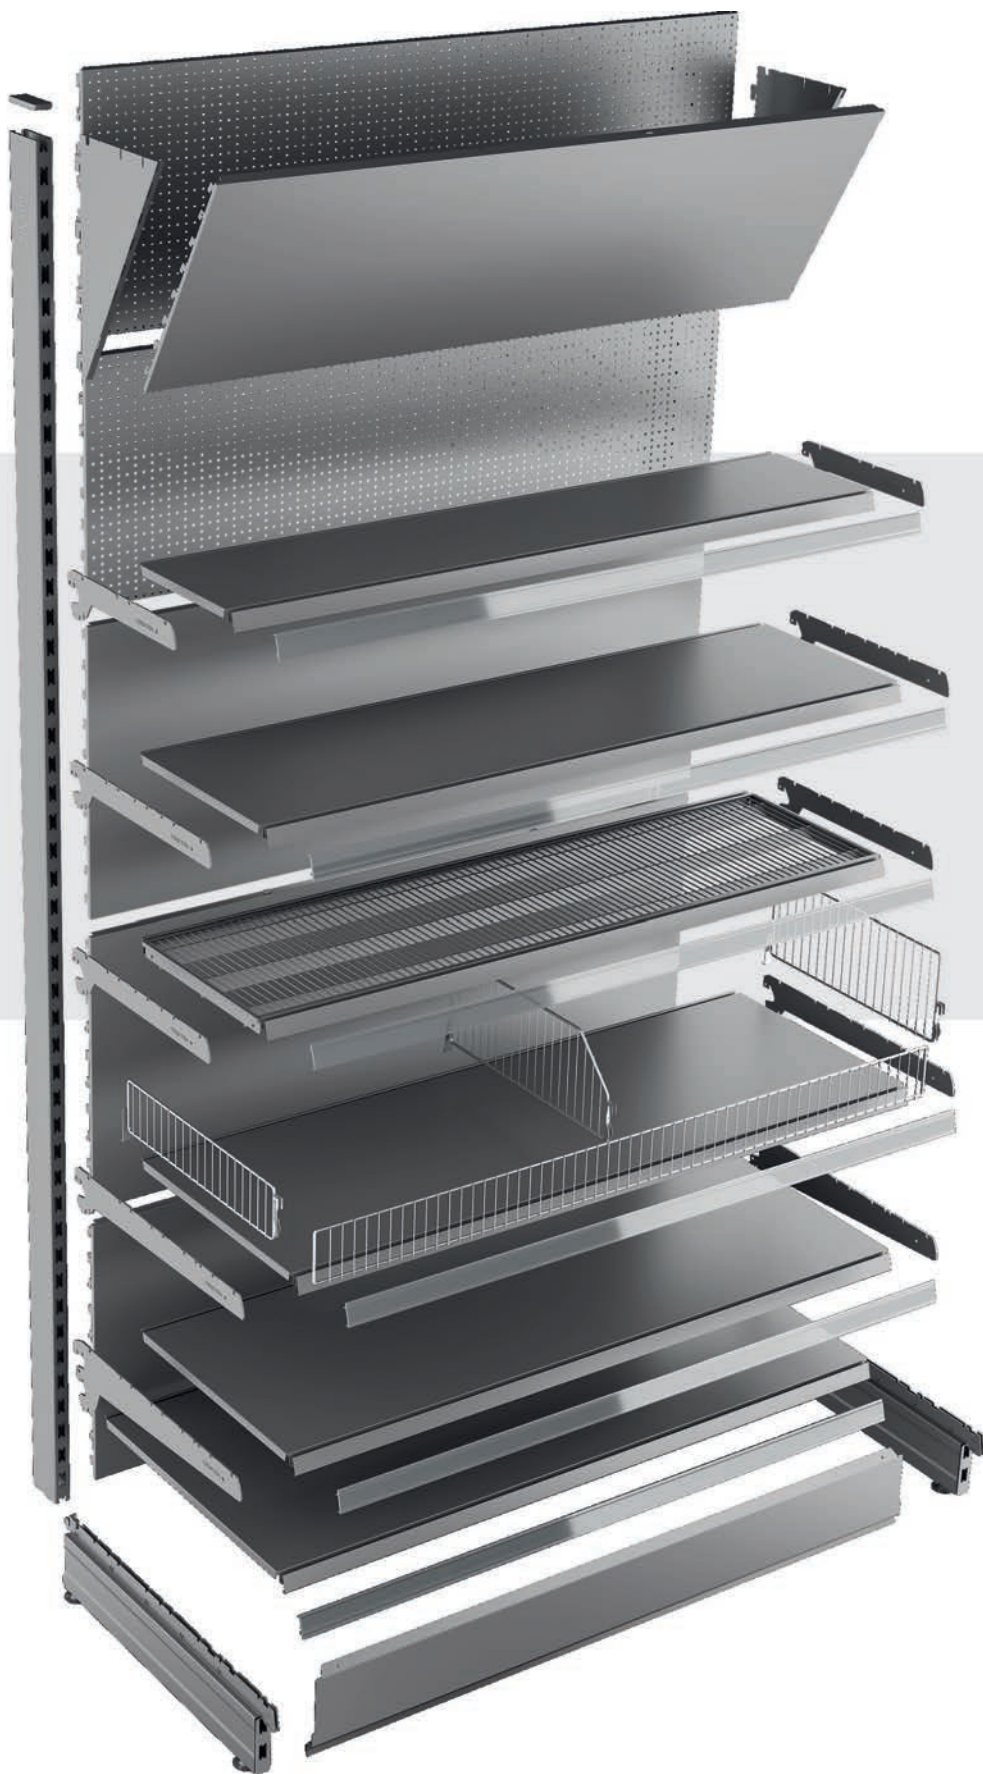

Dinamik is %100 domestically capitalized and is among the fastest-growing firms of the display and shelf systems sector with countless projects it has undertaken in 50+ countries. Dinamik has always led the sector with the innovations which it has brought to the sector with its mission of continuously searching for the better.

With the Belief of Investment to the Sector is Investment to the Future

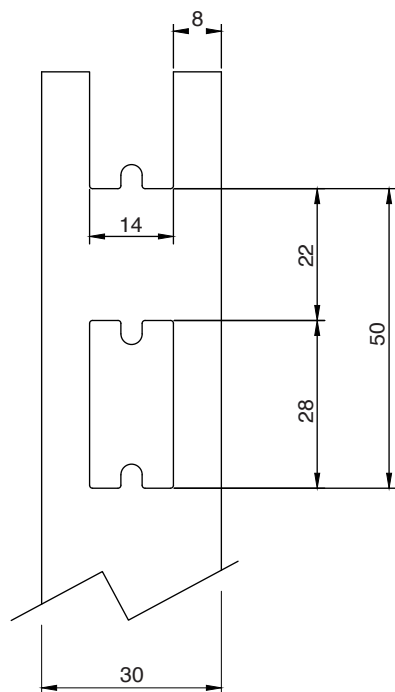

Dinamik realizes its production in its facilities in Zonguldak and in Istanbul, its indoor production area totals around 12.500 m² and uses modern production technologies which are well accepted today all over the world on the area of display and shelf systems sector.
